

1781-Series of Slim input and output modules and solid-state relays provide compatibility with a variety of manufacturers' miniature modules. Slim modules have a hold-down screw, and can be used in mounting boards where vibration and shock are not of concern.

All modules are UL recognized, and CE compliant.

The 1781-Slim package offers the following advantages:

- Matches the industry de facto standard pin-out footprint
- Smaller footprint allow 30% space savings over Classic
- Lower height convenient for mounting
- Includes hold-down screw
- Compatible with WRC's line of SmartMux and data acquisition cards
- UL, CSA and CE marks standard
- 5, 15 and 24 volt logic available
- Proven reliable circuitry

18 mounting boards are available (most with spare fuse, power-on LED and fuse test circuit.)
